SIXTEENTH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, FEB. 9, 1905.

No. 6

## COASTING ACCIDENT

**Gay Party on Methodist Hill  
Have Runaway With Double  
Header.**

**MIGHT HAVE BEEN SERIOUS.**

Monday night while coasting on a double header down Methodist hill the running gear of the sled got out of fix and the sled became unmanageable running into a fire plug with great force. Miss Werdna Stokes, one of the party of coasters, had the misfortune to bruise her foot and ankle badly. She was removed to the residence of Dr. A. O. Sisk where medical attention was given immediately. As soon as possible thereafter she was carried home in a buggy and at present is getting along nicely the swelling in the ankle being considerably reduced.

On the same night and about the same time a sled containing some boys ran into an obstruction overturned and broke one of Fred Hoesa's ribs.

He was carried home by two men and is still in a serious condition. Willie Hoesa, who was on the same sled had his head badly cut.

### KENTUCKY YOUNG MEN'S

**Christian Association Will be Held in  
Owensboro Feb. 16-19.**

For the third time in the history of the Kentucky Young Men's Christian Associations, there will be held in connection with the Annual State Convention at Owensboro, February 16-19, a Conference for the Women's Committees of the Association of the State. The Conference will be held in the Assembly Hall of the Association Building on Friday afternoon at 3:30 and will be presided over by Miss Sue B. Scott, of Lexington. Papers will be presented by Diss Ora V. Leigh, of Paducah, and Mrs. Lee Riker, of Harrodsburg, an informal discussion following each topic.

The Owensboro Women's Committee will entertain the delegates while in the city, and a rate of one and one-third fare has been granted by all of the railroads of the State.

There are splendid indications for a strong representative conference.

### NINE SETS OF TRIPLETS.

**President Roosevelt Will Meet Parents of  
Unusual Family.**

Washington, D. C., Feb. 4.—President Roosevelt will be introduced next week to the father and mother of nine sets of triplets, and it is expected he will present them with an autograph photo.

George V. Dunville, the father, is but forty-three years old, and his wife is thirty-eight. They live in Yankton, S. D. They expect to arrive here on a visit next week, and the Senators and Representatives will take them to the White House. The twenty-seven children are nine sets of triplets, twenty-four of whom are boys and three are girls. The children will not be here.

### Royal Carriers in Christ.

Washington, Feb. 4.—Rural carriers appointed: Casky, route 1, Henry Barber carrier, James H. Ware sub; Crofton, route 1, Ben E. Myers carrier, Ernest Myers sub.

### ENGINEER KILLED

**By Boiler Explosion at Saw Mill Near  
Madisonville.**

James Hendricks was killed and a saw mill wrecked by an explosion of a boiler six miles from Madisonville at noon Saturday. The boiler was used to furnish steam for the mill and the cause of the explosion is still a mystery.

The mill was owned by Onton Brucken, of Evansville. It had been running the greater part of the winter. Friday morning by Deputy Sheriff H. L. Sutton of Wheatcroft, Ky. He is charged with shooting at Sam Leshner, a cab driver, at the Union Station a week ago Sunday.

Wells was admitted to bail in the sum of \$150 by City Judge Walker. His trial was set for February 8.

Wells came here with two other officials of the miners union a week ago Sunday and spent the day. They left the Hotel Henderson in a hack driven by Leshner, and went to the station to take a train south.

At the station a quarrel arose over the payment of the fare. The three union men and the cab driver was standing on the stone wall at the southern end of the depot squabbling over the fare when one of them attempted to strike Leshner.

The cabby knocked him off the wall. Another one of the union workers drew a pistol and leveled it at Leshner. Before he could fire it Leshner struck him on the point of the jaw. The gun exploded and the bullet clipped a piece out of the side of Leshner's cap and raised a small knot on

### UNION ORGANIZER IS CHARGED WITH SHOOTING

**Charles W. Wells, District President  
of United Mine Workers.**

### ARRESTED AND TAKEN TO HENDER- SON

(Henderson Gleaner Feb. 4.)

Charles W. Wells, district president of the United Mine Workers of America, located at Central City, was brought here Friday morning by Deputy Sheriff H. L. Sutton of Wheatcroft, Ky. He is charged with shooting at Sam Leshner, a cab driver, at the Union Station a week ago Sunday.

Wells was admitted to bail in the sum of \$150 by City Judge Walker. His trial was set for February 8.

Wells came here with two other officials of the miners union a week ago Sunday and spent the day. They left the Hotel Henderson in a hack driven by Leshner, and went to the station to take a train south.

At the station a quarrel arose over the payment of the fare. The three union men and the cab driver was standing on the stone wall at the southern end of the depot squabbling over the fare when one of them attempted to strike Leshner.

The cabby knocked him off the wall. Another one of the union workers drew a pistol and leveled it at Leshner. Before he could fire it Leshner struck him on the point of the jaw. The gun exploded and the bullet clipped a piece out of the side of Leshner's cap and raised a small knot on

the side of his head.

The three men then jumped aboard their train and escaped. Leshner was arrested but was dismissed. The warrant on which Wells was arrested was sworn out by Ticket Agent Rogers.

### KENTUCKY EXHIBIT ASSOCIATION

**Returns Money and Material to State.—  
Dinner in Honor of President Ford.**

Louisville, Ky., Feb. 5.—The Kentucky Exhibit Commission adjourned finally yesterday, after auditing its accounts showing that a surplus of \$2,800 in cash and \$7,388 in materials remains to be turned back into the State Treasury. A dinner was given last night in honor of President A. Y. Ford, who was presented a handsome silver service set by the members of the commission in recognition of his services.

A resolution was adopted commending unreservedly the work of Robert E. Hughes, who acted as Secretary and Treasurer of the commission.

### IMPROBABLE RUMOR SAYS

**Grand Rivers Sold to Railroad.**

Paducah, Ky., Feb. 4.—A report is in circulation that the iron furnaces at Grand Rivers, Ky., have been purchased by the Illinois Central from the Hillman Land and Iron Company, which is composed of St. Louis capitalists. These furnaces were built by Thomas W. Lawson, author of "Frenzied Finance," several years ago.

A cork tree is fifty years old before it produces bark of a commercial value.

### COAL BUSINESS INCREASING.

**New Train May be Put on to Handle the  
Black Diamonds on Providence  
Branch.**

The output of the coal mines on the Providence branch of the Henderson division has increased to such an extent that it has become necessary to add an extra train to the service.

Hardly a day or night passes

that an extra is not required to

pull out the coal. One night

this week three extra trips were

made to this place with coal.

The business is being further increased by the new mines and the railroad company is now seriously considering the matter of putting on another regular train on the branch. It is not known what the schedule will be when it is put on, but the idea

seems to be that it will run only

between Providence and Earl-

ington and will make about three

trips daily between the two

towns. It is also reported that

a regular Sunday train is soon

to be put on.

### NARROW ESCAPE

**From Serious Fire.—Inmates Awake  
Just in the Nick of Time.**

Monday night Mrs. Burr, wife of Earlington's popular mayor, was aroused from slumber by the smell of smoke, and on arising discovered the floor in a light blaze in front of the grate in the room. She hastily procured a bucket which was fortunately not frozen and soon extinguished the fire. The coal on the grate had fallen down and burned a hole through the carpet and floor and had not Mrs. Burr been a light sleeper and discovered the fire when she did in all probability the house would have been consumed.

### Frightened the Passengers.

Tuesday as Conductor Harry Bramwell's train came in to Earlington from the North and was passing the coal chute at No. 9 tipple the passengers received quite a little scare. Some one had left the iron apron down and in passing it struck the top of the coach lifting it several inches from the truck bearings and tearing a hole in the roof. When one end of the coach raised up the passengers thought it was going to turn over and a general rush was made for the rear door. Before any of the panic stricken passengers could alight however the coach had settled back and the ripping tearing noise had ceased. The amount of damage done was small.

### In the Ice King's Grip.

Earlington, Hopkins county and the rest of the adjoining country is now in the grip of the ice king. A steady drizzle fell Sunday on the snow and froze hard and fast Sunday night and since that time it has been dangerous and difficult to walk faster than a snail's pace.

**Mrs. Jno. Rule Receives Injuries From a  
Fall.**

Mrs. Jno. Rule, of this city, had the misfortune to fall on the icy steps while carrying a bucket of coal Saturday and injuring her back. Dr. Chatten was called in. She is progressing nicely at present and will likely recover in a few days.

### Jeff McEuen Injured.

Jeff McEuen, son of G. T. McEuen, of this city, fell on the ice Wednesday morning and was rendered unconscious by the fall. He was picked up and carried to his home as soon as possible where restoratives were administered. At last accounts he was progressing nicely and seemed little worse from the accident.

## HUNT SITE

**Practically Selected and Legisla-  
tive May Adjourn Tomorrow.**

**SESSION COST STATE ABOUT \$30,000.**

Frankfort, Ky., Feb. 7.—The "Hunt site" is so close to winning there is little use of further parley and the extra session of the Legislature may adjourn Friday.

This is the result of the Senate today by a vote of 24 to 4, adopting the report of the Joint Conference Committee of the General Assembly, agreed that the Cantrill amendment proposing that the State purchase an additional block of ground to the northeast of the Hunt place site, at an expense of \$20,000, should be so amended as to leave this additional purchase wholly in the discretion of the State Capitol Commission and furnishing it options on the property to March 1, 1906.

If the Legislature adjourns tomorrow it will have been in session thirty days so far as cost is concerned, for the members are paid for Sundays, and the cost is estimated at fully \$1,000 a day. Therefore this extra session has cost the State not less than \$30,000 in per diem and mileage.

### Diamonds and Triangles.

Mr. and Mrs. Frank D. Rash entertained in their attractive new home last Thursday evening. It was an unusually enjoyable occasion brightened by certain original ideas of the technical gentleman who occupies the tripod in that household. The professional instinct came to the surface in the artistic adaptation of Sabbath newspaper humor to blue-print, pictorial tally cards upon which were engrossed certain original and very humorous legends appropriate to the game and the foibles of the players. In form the cards were triangles for the men, diamonds for the ladies. This might be reasoned as the sincerest flattery to the jewel wearers; to symbolize that, try as hard as they might, the men could never hope to capture a single jewel of credit at the ladies' own favorite pastime. The men took the cake all right when it came to refreshments and concluded the evening in the place they could. Mrs. O. H. McGary wore the championship ribbon for the ladies. Dr. C. B. Johnson won all the games and took the gentleman's streamer. It was flinch.

### Millions of Catholics Under American Flag.

The official directory of the Catholic church for 1905 gives the Catholic population under the American flag as 20,553,492. Of these, 12,407,793 are in America and 7,055,699 in the Philippines.

### Capt. F. D. Rash Member Shelbyville Court Martial.

Capt. Frank D. Rash returned Tuesday from Shelbyville, where he went to sit as member of a Court Martial in the case of Capt. Burton of the Shelbyville Company. The charge is understood to have been practically the same as that recently made against a number of officers of the First regiment at Louisville; the failure to make proper reports of property records at the times fixed by law. The result of the trial has not been made public and Capt. Rash is non-committal concerning the whole matter.

Major E. B. Bassett, of Hopkinsville, served as Judge Advocate of the court. The other members were Lieut. Col. S. S. Morrow, of the Second regiment; Major G. Talbot Berry, of the Third; and Capt. Frank D. Rash.

# The CHIEF

End and aim in business is to make money, and the best way to make money is to

## Advertise.

You may have the best and cheapest dry goods or groceries in the city and if you do not let the public know it they will stay on your shelves until they spoil or the style changes.

We are living in an age when publicity is an absolute necessity and the up-to-date man cannot run a successful business without advertising. The old adage has been changed to read:

Early to bed and early to rise,  
Hustle like thunder and advertise,  
Makes a man healthy, wealthy and wise.

Place an ad in the Earlington Bee and watch your business grow.

# Bishop & Co's DELAYED CLEARANCE SALE.

For several reasons we have been delayed in inaugurating our GREAT MID-WINTER CLEARANCE SALE. We have at last, however, gotten every thing in "ship shape" and are determined to make this "clearing up sale" the greatest success of our life. Beginning Wednesday, February 8th, we shall place before the bargain hunter more genuine bargains---bargains with more meat in them than he or she has ever had an opportunity to take advantage of.

We have just finished the closest inventory of a lifetime---have gone carefully through each and every department in our immense stock and "fixed" all odds and ends, and beside vast quantities of seasonable merchandise for getting a "quick move" on themselves. By "fixed" we mean we have placed a discount on these goods that can but result in the "cleaning up" of all articles thus marked during this great clearance sale beginning the 8th and extending through the remainder of the month.

While lack of time and scarcity of space forbid entering into minute detail, we do below enumerate in a general way some of the great sacrifices of this sale.

## ALL OVERCOATS AT 25 PER CENT. DISCOUNT

THINK OF IT!  
In the midst of winter.

### CLOTHING.

Under this head we have arranged 100 Knee Pants Suits, sizes 3 to 8 years.  
246 Knee Pants Suits, sizes 9 to 16 years.  
199 Young Men's Suits, sizes 14 to 20 years, that have vests and long pants, upon which the following cut prices go.

\$1.50	Suits cut to	\$1.15
2.00	Suits cut to	1.50
2.50	Suits cut to	1.75
3.00	Suits cut to	2.25
3.50	Suits cut to	2.50
4.00	Suits cut to	3.00
5.00	Suits cut to	3.50
6.00	Suits cut to	4.50
7.50	Suits cut to	5.50
10.00	Suits cut to	7.50
12.50	Suits cut to	9.00

And a universal discount of 20 per cent. upon every Man's Suit in stock.

Think of it, a \$10,000.00 Stock of Clothing going during the remainder of the month at about manufacturer's price.

## Goods on the Balcony

### NOW LISTEN!

	FIRST PRICE.	CUT PRICE.
37 off style tailor suits	\$10.00 to 25.00	\$1.50 to \$6.00
14 off style tailor suits	10.00 to 20.00	1.50 to 4.00
8 Golf Capes.....	5.00 to 13.50	1.50 to 3.50
24 old cloth Capes....	50c to 1.50.	50c
11 off style Capes.....	1.50 to 5.00	75c to 1.50
6 short Coats.....	4.00 to 10.00	1.00 to 2.50
17 Oxford Raglans....	5.00	1.50

All NEW tailor made suits at exactly manufacturer's price.

### FIRST FLOOR BARGAINS.

Here we cannot enter into particulars. In our immense SHOE stock we are showing numbers of Good Wearing shoes bearing the "clean up" mark which means they must move, and the lever used is a discount of 20 to 33 1/3 per cent. Most prominent on the Dry Goods side are one lot Damask Portieres at about one-half price, and a big lot each of Silk and Velvet Remnants that may run the ladies crazy when they get into them. These Silks and Velvets are wonderful bargains.

### SHIRTS.

A Stiff Front Shirt, all should agree, is the only correct thing for winter wear.

For some "unreasonable reason" however they have been abandoned and in consequence, we include in this great Sacrificing Sale the following:

168 Stiff Front Fancy Shirts.	
"Gold," "Silver" and "Monarch."	
\$1.50 grade cut to	50c
\$1.00 grade cut to	50c
14 $\frac{1}{2}$ to 17 $\frac{1}{2}$	

80 Stiff Front Fancy Shirts.	
50c Grade cut to	25c
14 $\frac{1}{2}$ to 17 $\frac{1}{2}$	

60 Good Work Shirts slightly soiled	
50c grade cut to 35c, or 3 for \$1.00	

### Winter Time--Winter Shirts.

Prices Cut Half in Two.

And in connection with this greatest of Clearance Sale, we have arranged to carry on a **White Goods and Embroidery** sale, which we think may prove the attractive feature of our February business.

For handling these we have placed a row of counters rightdown the center of our lower room, thus enabling quite a number of ladies to get a clean sweep at them at a time.

Standing room for you on both sides of the counters you see, and every thing being plainly marked there is no chance for friction

**10 cents**

Upon one counter we are showing 4,469 yards of Embroidery at  
In this lot are both Jaconet and Swiss---Edges and Insertions.  
Width of Edges from 2 $\frac{1}{2}$  to 10 inches.

**10 cents**

**5 Cents**

Upon an other counter are 2,103 yards of Embroidery at  
and about 150 yards at 12-1-2 cents a yard.

**5 Cents**

And throughout our White Goods, such as India Linens, Fancy White Goods, and our great stock of Table Linens we are making prices that guarantee a colossal business there in.

This is a "departure" for us and we earnestly ask each and every lady in Hopkins county to come and help us make it a great success. We certainly have done our part and the door is open to you.

In all candor we assure the trade. In this combined "Clearance, White Goods and Embroidery" sale we are offering the greatest values of our experience.

Come in, take your time and get your choice. Time from Feby. 8th to March 1st, 1905.

N. B.---We were about to omit two important facts. One is, we have quite a good assortment of Gum Boots on which we are making a discount of 20 per cent. and the other:

**No goods are to be sold on credit during this sale.**

**BISHOP & CO.**

Specimen copies mailed free on application.	
Correspondents wanted in all parts of the county. Address us for particulars.	

Telephone, No. 47.

THURSDAY, FEB. 9, 1905.

Mr. ROOSEVELT proved to be the most popular man in America at the polls last November, so far as the men of the country were concerned. And now he is becoming the pride of American women. The President recently recommended the whipping post for wife beaters, in his message to Congress and more lately sent a special message to that body recommending that provision be made for gathering statistics on marriage and divorce to the end that uniform divorce laws may be enacted.

The American eagle now drops its wings over two new States, Oklahoma including Indian Territory, and New Mexico, which came in under the Joint Statehood bill in the United States Senate on Tuesday night. The bill is not a law yet but will be in due course. One amendment which will please all temperance advocates is the provision that the sale of intoxicating liquors is prohibited in the new State of Oklahoma for the period of twenty-one years. This provision was originated for the protection of the Indians.

The railroads have, during the present frigid spell of weather, been unable to move the heavy coal shipment from the mines with promptness until the last two or three days. Even yet the movement is not normal. The tonnage of general business has been great and the extra demands on the coal producers simply made prompt movement of trains in such frigid weather impossible. The addition of another set of train dispatchers to the Earlinton office enabled the railroad officials to liven up the movements of trains at once. The freight traffic on the Henderson division of the Louisville & Nashville is constantly increasing and the division is now divided into three sections with three sets of dispatchers, and all is handled from the Earlinton office. Some day not far distant this will be a double track division with equipment commensurate with its importance as one of the busiest divisions of a great railroad system.

## One Year Ago.

This week, one year ago, was a momentous week to many millions of people the world over. On February 6th, 1904, just one year ago Monday, Japan severed diplomatic relations with Russia and the Russian Minister to Japan was recalled. Just on year ago yesterday Vice-Admiral Togo with the main Japanese fleet engaged the Russian ships and batteries at Port Arthur.

On February 10th the Czar proclaimed war with Japan.

The other chief event of the week was the great Baltimore fire of February 2 and 8, which destroyed \$70,000,000 of property, burning 140 acres comprising 75 city blocks with about 2,500 buildings.

Historical Events—February.

Feb. 12. Abraham Lincoln born, 1809.

Feb. 15. Battleship Maine blown up, 1898.

Feb. 22. George Washington born, 1732.

John Wanamaker III.

Palm Beach, Fla., Taken up to the Chaco, Trujillo.

John Wanamaker, former Postmaster General, is ill here and may be compelled to give up business for a long time. He is said to be contemplating a long trip to Japan.

## Traveling Salesman Shot Accidentally.

Evansville, Ind., Feb. 1.—G. Hilary Clark, a traveling salesman for the Green River Distilling company, of Owensboro, is lying at his home on Jefferson avenue, in this city, with a bullet through his head.

Mr. Clark was on an Illinois Central train at Enfield, Ill., on his way home, when a boy in a field at some distance from the railroad track fired a rifle. The bullet crashed through the window and struck Mr. Clark in the head. It was at first thought that the wound would prove fatal. It was temporarily dressed and Mr. Clark was sent to the hospital, where he was found to have the ball still embedded in the bones of his nose. It was extracted, and it is now the opinion of the physicians that the wounded man will recover.

## Lincoln a Friend of the South.

The following excellent article appears in the editorial columns of the Louisville Evening Post:

We are glad to see in the advertisements of a new book by the Rev. Dr. Dixon the catch line, "Lincoln a friend of the South."

It is true. It is not new. Yet it is well to remember that Lincoln in his efforts to keep it fresh in the minds of all the people.

Lincoln was not the first, nor was he the last President, who was a friend of the South.

Johnson was a friend of the South, though his wisdom was as manifest as his friendship.

Grant was a friend of the South, though it took the South some time to find it out.

Hayes was a friend of the South, but did more than Tilden could have done to restore the South to the Union.

Garfield was a friend of the South, and so was Arthur.

Cleveland was a friend of the South, and opened every door of preference to Southern men.

Harrison was a friend of the South and was welcomed wherever he went.

McKinley was a friend of the South and showed it especially in his army appointments.

Roosevelt is a friend of the South and shows it steadily by advancing the standard of Federal service in the South.

These statements are grouped in order to make plain that the day of the sectional President has passed; any man can be elected President who is a friend of the South.

Because the South is an integral portion of the American Union and a most important portion.

Let us keep that fact in mind, and get away from the position in which mere partisan leaders have placed the South. Let us take it for granted that Congress, the President and the Supreme Court are all friends of the South, and make no further effort.

Then let the South, as a part of the nation, consider national questions from a national standpoint, looking to the future instead of the past.

The South is no beggar for Prince's favor. It is misrepresented by many who speak in its behalf. It is not a child, and it has put away childish things. It asks no privileges or exemptions, but only fair play. We think of the South too much as a political party, and let us think of it as a portion of the Union, with diversified interests and with purposes requiring national approval and national support.

When our political leaders stop talking about Southern friendship, Southern policies, Southern politics, the nation will look to the South as to the West and East and North for guidance and for leaders and for Presidents. But as long as we ask each other if one President or another has been a friend of the South, the conclusion is that the South is uncertain of herself, uncertain of her position, uncertain of her future and not ready for national leadership.

## A LIFE SAVED

READ THIS LETTER FROM A GRATEFUL KENTUCKIAN

Princeton, Ky., Feb. 4th, 1905  
I wish to state for the Foerg Remedy Co., of Evansville, Ind., that I am a great Remedy Co. man, as also is Foerg's Remedy, having used it for some ten years. It was trouble with a blood clot and it seemed he could get no relief until he took Foerg's Remedy. After taking five bottles he was entirely well. I am now in good health and some five years ago he was entirely well of that disease. I also took two bottles as a blood purifier and I am well.

(Signed) C. H. STONE, Princeton, Ky.

## News of the Mines.

## Coal Dust Explosions in Mines.

The losses of life and property from explosions in coal mines in the past have been enormous and appalling, and much study and investigation has been done to find the causes with a view to prevent or minimize such accidents.

Firedamp, when mixed with air, was at first thought to be the sole source of danger, and, when firedamp is present no one will deny that this may be sufficient to produce most disastrous explosions when fired, but serious explosions have occurred in mines thought to be free from explosive gases.

It was only about a century ago that coal dust began to be recognized as a possible factor in colliery explosions. In 1844 Faraday and Lyell made a series of experiments at the Haswell Mine, in England, after a serious explosion had occurred, and they concluded that coal dust had played an important part in the explosion. Later in the century attention again became directed to the influence of coal dusts on the series of disastrous colliery explosions that took place. In England, France, and Germany elaborate investigations were instituted which added much to our knowledge of this subject.

There is still some disagreement as to whether a mixture of coal dust and air alone is explosive,

but it is generally conceded that when even a small percentage of firedamp is present the mixture becomes exceedingly dangerous. The all important thing to be determined in an investigation of this subject is whether a mixture of gas could, under any condition, be exploded. This fact once established, the possibility of such an explosion occurring in a non-gaseous mine must be recognized.

Experiments were made in Great Britain by Galloway, Hall, Lishman, and others in artificial galleries both on a small and on a large scale, in which shots from a cannon or pistol were fired in an atmosphere heavily charged

with coal dust but free from explosive gases. In some cases an ignition or explosion took place and was propagated throughout the entire length of the galleries. In other cases there was simply an elongation of the flame from the shot without ignition. The certainty of an explosion was to depend on the fulfillment of a number of conditions, among which are, the fineness, the state of dryness and purity of the dust; the amount of dust in suspension; the kind and quality of the powder used to produce the initial explosion; the tamping used, etc. If any one of these and perhaps other conditions unfavorable no explosion was produced, but when every condition was favorable violent ignition and explosions resulted. —W. H. Graves in Review of Waste Heat From Coke Ovens.

When it is considered that the yield of coke, even with coal best adapted for its production, is by weight only 65 per cent of the original weight of the coal, and when, furthermore, it is considered that practically all the ash and incombustible portion, excepting moisture, remains in the coke, the fact is impressed on one's mind that in the coking process a great deal of the heating power of the coal is lost. Assuming that the heat value of a pound of coke is 13,000 British thermal units, then .65100 pound produced from 1 pound of coal would represent 8,450 British thermal units. Comparing this with the original heat value of the coal, which under these circumstances would be about 13,500 British thermal units, the numerical value of the loss just mentioned is found to be 5,050 British units. This if entirely utilized, would evaporate approximately 51 pounds of water. While actually such an evaporation per pound of coal coked is of course out of the realms of possibility, still if only a fraction of this amount could be obtained the results would

well warrant a considerable investment.—From an article in February Mines and Minerals, Scranton, Pa.

Wm. Lynch, of Dawson Springs, has sold the old Clifton Coal Company mines and 1,000 acres of land around Mannington to parties contemplating the re-opening and operation of mines there. The sum reported to have been received for the property is \$35,000. One report says the sale was made to Baltimore parties, another that men of Nashville, Tenn., made the purchase. It has been quite a number of years since coal mining was discontinued at that point. The old Clifton Coal Company was involved in debt and litigation and much of the plant and machinery was allowed to stand there and go to ruin. The opening of a successful mining operation at Mannington will revolutionize conditions in that vicinity.

Pittsburg coal in Louisville has advanced to \$3.25 per ton retail on account of suspended navigation in the Ohio river. Kentucky coal has followed with a similar advance of 25 cents per ton. The demand for coal is excessive just now at all Kentucky mines and none can nearly furnish the supply asked.

# Ayer's

Doctors first prescribed Ayer's Cherry Pectoral over 60 years ago. They use it today more than ever. They

## Cherry Pectoral

rely upon it for colds, coughs, bronchitis, consumption. They will tell you how it heals inflamed lungs.

"I had a very bad cough for three years. I had seen many physicians, but none had soothed and relieved my cough. Then I tried Ayer's Cherry Pectoral. It has soothed and relieved my cough. I am now well again."

One Ayer's Pill at bed-time, aids a natural action, rest.

Old Coughs

Old Coughs

One Ayer's Pill at bed-time, aids a natural action, rest.

A Close Shave.

His father had spent some time telling him in simple language about the deluge, about Noah and his ark and about the destruction of all the wicked.

"Father," said the boy, "you say that all the good people were saved in the ark and that all the wicked were drowned?"

"Yes, my son."

"Don't you think," was the incident closing comment after some deliberation, "don't you think that it is exceedingly fortunate that we did not live at that time?"—Southern Farm Magazine of Baltimore, for February.

You Know What You are Taking

When you take Grove's Tasteful Cough Tonic, because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteful form. No cure no pay. 50c.

The badge worn at the greatest temperance celebration ever held in Exeter, N. H., is still in existence. It is of blue satin, on which is stamped the picture of a fountain with this inscription. "Cold Water, God's beverage." The celebration occurred more than fifty years ago.

Before being admitted to the Old Maid's League of Bristol, Wisconsin, four young girls were forced to take an oath that they would use all honorable means to become wives during the next twelve months.

Deserved Popularity.

To cure Constipation and Liver troubles by giving the best laxative and cathartics as a tonic to the liver, take Little River Ringers. These Famous Little Pills are mild, pleasant and have but effective and sure action. Their universal popularity for many years is a strong guarantee of their popularity and usefulness.

Sold by St. Bernard Drug Store.

Six gallons of oil fed to an angry sea protected the passengers of the big Hamburg-American liner Pretoria from the fury of a tempest all day long the other day.

The street railroads of San Francisco, in accordance with a request by the board of health, have issued an order against carrying of soiled clothes on their cars in bundles or baskets.

Influenza is more prevalent and more fatal in Chicago this winter than at any time since the epidemic year of 1891.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar a third and a long time ago, and on account of the merit and popularity of Foley's Honey and Tar many imitations are offered to the public. Ask for Foley's Honey and Tar and fuse any substance offered as another preparation will give the same service. It is a fact that Foley's Honey and Tar is safest for children and delicate persons. Sold by Jno. X. Taylor.

The meanest man has been discovered in Spokane. He was caught robbing an orphan's mite box in a store in which he was employed as a watchman.

A Madrid restaurant keeper has sold a woman for a meal. He swears that she ate and drank without ceasing from 8 p. m. to 2 p. m.

Health.

Means the ability to do a good day's work, without undue fatigue and to find life worth living. You can have it by taking our preparation without its upsetting the liver and polluting the blood. Such a course may be best for you. Get it at the drugstore. Herbs are the best liver regulator that the world has ever known. Mrs. D. W. Smith writes: "I have had a kidney trouble, and find it the best medicine for constipation and regulating the liver I ever used." Price 50 cents. Sold by St. Bernard Drug Store.

Make a Compass of Your Watch.

Get one of the hours from midnight, divide by two and point the hour to the sun so that the shadow of a match or lead pencil falls directly on the hour. The hour the sun will be north, 6 south, 9 west, and 3 east. Suppose it is 9 A. M.; number of hours from midnight is 9; one-half is 4½; point 4:30 to the sun so the shadow of a match or lead pencil falls across the center of watch, and 12 is north, 6 south, 3 east, 9 west. Suppose it is 6 P. M.; Number of hours from midnight 18; one-half; 9; point 9 at the sun and hand to midday; it is possible, with practice. Send for one and mention THE BEE.

### Observations in Brief.

(William J. Bartscher.)  
A daily reminder—conscience. Why not call Missouri people Missouri Folk?

A little reckless automobile is a dangerous thing.

The way that leads to hell is not much longer than it is wide.

Since the free railroad pass is about to pass legislators do not seem to receive fair treatment.

Believe me what critics may say each of the 2,500 books produced in 1904 contain passages worth under-scoring.

The mice that will play when the cat is away will be caught some day.

A cat in St. Joe, Mo., has been wearing a diamond on its tail for two years. Case of cat putting on dog.

When Tennessee's "marriage-mrimony" by taxing bachelors, the Old Maid's League of Bristol, Wis., may move its headquarters to that state.

The man with wheels in his head is the man who dreams of dollars he would like to get.

The man who runs in debt before he thinks generally runs to the man to whom he is in debt when he does this.

The saloonkeeper has no use for the man who can carry a dollar until it wears a hole in his pocket.

The cigarette is about to meet the fate it deserves at the hands of the Indiana legislature. If it does there will probably be no necessity for that additional hospital for the lame—the governor has recommended.

The street car's electric light shines the brightest when the car comes to a stand still and the power is off, but our lights are seen to the best advantage when we are moving, and the power is on.

### Good Spirits.

Good spirits don't all come from Kentucky. Their main source is in Illinois, all the fine spirit ever made in the Blue Grass State could not remedy a bad liver or the dead—end—and-by effects it produces. You won't have to go to Kentucky to find a good spirit and a bad liver at the same time.

Your liver must be in fine condition in order to have a bright, happy and hopeful, bright of eyes and of step, vigorous and successful in your pursuits. You can put your liver in condition by taking a dose of Angeline Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a household remedy for over thirty-five years. Angeline Flower will make your liver healthy and active and give you a good appetite and of "good spirits." Trial size, 25c; regular bottles, 75c. At all drugstores.

### A Story With a Moral.

"Just over the hill in the head of the May branch, lives the family of Uncle Ben Fraley who died several months ago. Their house had no floor other than the bare, frozen ground, and the cold wind comes in through the cracks. With clothing just enough to keep the nakedness, hardly any bed clothes. The mother is sick and food is scanty but they have managed to survive up to this time but cannot sustain much longer without help. Let all charity-loving souls who believe in 'doing as they would be done,' now come forth to help to tide this mother and six children over this sea of misfortune."

The above is from the Prestonground East Kentucky and undoubtedly true. We have seen their comfortable home and their slippers nestled in an inch of Brussels carpet, where no air could reach them save from the furnace, grumbling about hard times and what they had to eat. Good wife, if your husband grumbles about his food, read him the above paragraph; husband, if your wife fusses because her bonnet is not as fair as her neighbor's read her the above paragraph.

### A Menace to Health.

Kidney trouble is an insidious danger, and many people are victims of a secret disease before the symptoms are recognized. Foley's Kidney Corrects irregularities and strengthens and builds up the kidney. It is the best kidney medicine and find it the best medicine, as it is impossible to have good health if the kidneys are deranged.

For sale by Jno. X. Taylor, Earl-

ington.

### Dr. Green's Great Puzzles.

Dr. G. G. Green, of Woodbury, New Jersey, will mail for a 2c stamp, (simply for postage), one of his great novelties, a wooden box with glass top, containing six little colored balls. It necessitates remarkable dexterity of the eye and hand to master it, but it is possible, with practice. Send for one and mention THE BEE.

Get one of the hours from midnight, divide by two and point the hour to the sun so that the shadow of a match or lead pencil falls directly on the hour. The hour the sun will be north, 6 south, 9 west, and 3 east. Suppose it is 9 A. M.; number of hours from midnight is 9; one-half is 4½; point 4:30 to the sun so the shadow of a match or lead pencil falls across the center of watch, and 12 is north, 6 south, 3 east, 9 west. Suppose it is 6 P. M.; Number of hours from midnight 18; one-half; 9; point 9 at the sun and hand to midday; it is possible, with practice. Send for one and mention THE BEE.

will save the dyspeptic from many days of misery, and enable him to eat whatever he wishes. They prevent

### SICK HEADACHE,

cause the food to assimilate and nourish the body, give keen appetite,

### DEVEL FLESH

and sold muscle. Elegantly sugar coated.

### Take No Substitute.

### A Country Kid.

"A Country Kid," H. B. Whittaker's successful drama, comes to the Temple Theater Feb. 16.

The play deals with life as seen in small Indiana towns and is said to be one of strong morals and an interesting plot, enlightened by better dialogue than is usually found in the ordinary run of comedy dramas.

It will be made notable by some pretty stage pictures and will be interpreted by a company of well known actresses and actors in their native style.

Tuesday evenings from St. Louis, through Pullman standard sleeping cars, St. Louis and San Francisco, via the Missouri Pacific Ry. and Scene Colorado. Elegant sleeping car service.

Tuesday evenings from St. Louis, through Pullman standard sleeping cars, St. Louis to Los Angeles, Calif., via the Southern Pacific.

New tourist sleeping car excursions via Iron Mountain Route and El Dorado.

Leave St. Louis on Monday and Saturday.

For a home trip, the service is

Chickens, frying size, \$1.50 to \$3.00 per dozen.  
Hens, \$2.50 to \$3.00 per dozen.  
Turkey, 12½c.

### Ventilate Poultry Houses.

The plan of keeping the poultry house warm during the winter is already up to certain limits, but there is no keeping it without ventilation. What is needed most in the building of a poultry house for winter occupation is an arrangement which will supply ventilation, which draughts and still permit of the house being made warm enough for the birds, in very cold regions.

There are many plans of ventilation from the window opened in an adjoining portion to the box ventilator which extends from the floor out through the roof. One will have to work out his own house and make a ventilation that will be suitable to his own house and means. Most probably will find the ideal plan in a combination of one or two more; more attention should be given to providing ventilation and less to talking so much about which is the better plan. If one's house is not as well provided in this respect as it should be, this, at least can be done. Have some place into which the fowls will be turned during the warm part of the day, and a draught of cold and then throw the doors and windows of the house wide open and let the air blow through. Just as some of the worst colds are caught by humans from being in rooms too warm, so are some of the worst cases of roup among poultry trained directly to over warm houses.

### Care of Horses Feet in Winter.

The farm horse may not be doing much work at this season of the year but that is no reason why his feet and legs should not be cared for. If the horse is on the road more or less the legs and ankles become coated with mud or ice and should have attention as soon as the animal is standing still. If he is standing most of the day it is essential that the floor, or what ever material it may be composed, be kept clean. One way of caring for the feet and legs of a horse is to wipe them dry with a moist cloth when the animal is brought in then with a stick of wood give proper attention to the hoof. One of the fertile sources of rheumatism in horses is neglect of the feet and lower legs. We make it a business, in cold weather, to dip a little vaseline in the frog of the foot and over the hoofs generally two or three times a week and always clean this part as thoroughly

## Free Offer

In order to prove absolutely that we care for the health of animals pertaining to the Liver and Kidneys, Dr. C. L. Sullivan, ex-champion on, was lecturing on "How to Keep a Healthy Household." Dr. C. L. Sullivan refused, for only two people, it is said, bought tickets.

**CUT OUT THIS COUPON**

## NEWSY LETTER FROM OUR

Davis Well Correspondent.—Saw Mill Explodes and Engineer Killed.

A most shocking affair was the last explosion, Friday, at the Broken's saw mill on Pond river near Antioch, when Jim Hendrix, the engineer, was killed, having the top of his head blown off, scattering his brains, breaking both arms and both legs, and mangling his body fearfully, blowing it through the shed roof, which was made of corrugated iron, and landing it some 30 feet away. It was a most tragic and strange to say he escaped uninjured, notwithstanding the fact that the entire shed was demolished. He was filing the saw and the frame that supports the top saw protected him. It happened at the noon hour while the other hands were out at their shanty for dinner or there would perhaps been several more lives lost. The proprietor was in Evansville, Ind., at the time of the explosion, but was telephoned and returned home immediately. It is understood that he will repair the boiler and proceed with his work. The cause of the explosion is unknown.

Mrs. John Martin, of near Earls, Muhlenberg county, died last Friday of cancer of the breast. Her remains were buried Saturday at Antioch cemetery. She was a daughter of the late Esquire Hendrix, formerly of Madisonville.

Mrs. Johnnie Robertson, who has been confined to her bed for some four weeks with a complication of diseases, has recovered sufficiently to be able to sit up a part of the time.

Fooly bunny is having a hard time during the big snow. It is reported that a party with two guns killed off odd number day last week on the Slaton farm, and on the next day another party beat them by killing sixty on the same farm. This is about all the game the farmers can enjoy for the hunters from the towns generally manage to get the birds.

John Slaton and Lankford Todd have been wrestling for several days with a severe attack of lagrippe, and are considerably improved.

Ben Barnett, of the Island, had the misfortune to loose a fine milch cow recently. He purchased her in Warren county and drove her through. She seemed to have a hard chill when he got home and was dead the next morning. He also lost two others about the same time of his own raising.

**Itch—Ringworm.**  
E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady which I could not identify, and was most unbearable. I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I was told that one single application of Ballard's Snow Liniment cured me completely, and permanently. Since I have used the liniment on the two separate occasions for ring worm and it cured completely. 25¢, be and 10¢ bottle." Sold by St. Bernard Drug Store.

## BIG SUN SPOT

All the Local Sightseers Punish Their Eyes to Witness Phenomenon.

Have you seen the spot on the Sun?

This was the familiar salutation on Earlinton streets Monday and the way folks, even the school children, talked about Old Sol that day left his character anything but spotless. Nevermore can it be said of the light of "Thou art all fair." With a black blemish 30,000 miles in diameter plastered on his blazing front like a beauty spot on the countenance of a powdered matinée, people must be expected to talk. Next thing some body will call the old fellow a burning disgrace, a whitened seepulcher.

It is easy enough to see the black spot, triangular in shape, which astronomers say is one of the largest spots ever observed. A smoked glass or a not too heavy cloud serves as a screen to the eye and makes the spot easily discernible.

One-third of the land service of the globe is covered in trees.

A man should weigh twenty-six pounds for every foot of his height.

## LOCOMOTIVE BLASTS

Idron Brown, who was transferred to the Bridge Department last May on account of slack business on the road, has been returned to the mechanical department to resume his vocation as fireman.

Andrew Clark, for some time a car inspector at E. St. Louis, has resigned, giving as his reason that he has made a fortune dealing in railroad stock.

From the humble clerkship to the presidency of the Long Island Railroad is the record of William F. Potter.

Fireman J. W. Hestand of the St. Louis Division has resigned, in favor of the opinion that he is not cut out for a fireman.

The lagrippe seems to have gotten its grip on several well known railroad men in this section.

Just after train 52 had passed through Enfield, Ill., on the first a boy shot into the coaches. The bullet entered the cheek of G. H. Clark, who was a passenger. The train was making about fifty miles an hour when the shot was fired.

F. O. Walsh, of Montgomery, Ala., was the guest of his parents, Mr. and Mrs. Thomas Walsh, of Howell, Sunday and Monday.

Engineman Charles Surus spent a few days at Belleville, Ill., the first of the week attending court.

Several new passenger engines have been sent to this division in place of others which have been sent south.

We are pleased to add to our already long list of subscribers W. M. Cooper, the new night foreman of the Howell round house.

T. L. Hestand, fireman, has been confined to his room for the past week with the grippe.

Switchman John Bitts had his right hand mashed last Saturday at Evansville between two couples.

Ed. Kookendoffer, yard fireman, slipped off the tank of engine 428 Sunday injuring himself slightly.

Fireman Morris Gee had the misfortune to have his ears frost bitten so badly that he was obliged to lose several trips.

Abraham Solomon, who was struck at the Ingle mine not long since having to be taken to hospital, has fully recover from his injuries.

Letters of an Engineer to His Master Mechanic, No. 14.

Dear Sir:

Going around Ram's Horn Curve today we encountered a hand car. The section men had not heard us, and did not have time to get the car off the track.

Fireman Skupshen got so frightened that he jumped out of the cab window head first, almost killing himself. No one else injured. The hand car was smashed to pieces. The man who has been watching my engine at the other end of the line writes me the following letter today. I give it verbatim: "I am going to work any longer for your or Any other Rail Road Company. Get my time Check same as possible. I Have Maid a fortin A Gambin on Rail Road Stocks in the Past 10 days is the Reasing I am quiting you. I am not able to work and attend to my Stock Exchange Business any longer. So I Will Haft to quit your road, I don't Haft to work for a Small Sallary any longer."

Please send him a check for this time. I have an idea he will buy the road. I need another man now and wish in selecting him you would ask him particularly in regard to gambling, as I don't want a man who will work a week or so, and then get rich gambling on rail road stock and leave. I don't know what stock

he dabbled with, but I am sure it wasn't this road's stock. Conductor Punchen was around the engine again today. He looked at the steam gauge, set his watch by it, and went back where he belonged. He ought to be promoted some day.

Yours truly,  
S. ANDY KOWKETCHER,  
Engineer.

Mrs. Will Cozart and two babies, who have been visiting friends and relatives in Hopkins county for several days, returned to Elkhorn Saturday. Mr. and Mrs. Cozart have moved into their new home on Clarksville street.

## Give Your Stomach a Rest.

Your food must be properly digested and assimilated to the value of your stomach is worth or diseased take Kodol Dyspepsia Cure. It digests what you eat and gives you a strong appetite to recuperate, take on new life and grow strong again. Kodol cures sour, gas, bloating, heart burn, indigestion, etc. Dr. L. A. Soper, of Little Rock, Ky., writes us: "I feel that Kodol Dyspepsia Cure does what it promises and I can't say it for her constantly, but or course she only takes it now when anything disagrees with her."

Sold by St. Bernard Drug Store.

## NEBO NOTES.

Nebo has froze and all the news froze too, consequently you cannot expect much from this place this week.

Owing to the cold weather very little has been done in the tobacco factories.

Some of the young ladies met last week and organized a Culture Club for self-improvement. They elected Miss Callie Motlow, Pres.; Miss Alice Campbell, Secy.; Miss Lillian Graham, V. Pres.; Miss Lillian Roberts, Mabel Graham, editors to prepare and edit a paper each week. We think the enterprise a good one and would suggest a similar enterprise on the part of the young men and think that their time would be well employed.

Ed. Horman has accepted a position with H. R. Cox. We can say for Ed that he is one of our very best young men and predict that he will prove a great success.

Aaron Sights has been on the sick list, but is recovering.

Bro. Moore filled his regular appointment at the Christian church last Sunday. Owing to the weather he did not preach Sunday night.

W. S. Rutherford went to Madisonville Tuesday to attend court.

The supply of coal is falling short.

Roland Carnal spent two days in this place last week visiting the family of R. E. Walker.

James Winstead, of Earlinton, spent two days here last week.

Henry Price, who has been a citizen of this place for sometime, left last week for Wheatcroft, where he will make his future home. Henry was a quiet, good citizen and we regret to lose him and we wish him abundant success in his new home.

Mr. R. E. Walker has closed his school at Smyrna and has accepted a position in the bank here.

Rabbits are plentiful in this market and very cheap. Cris Hoffman says that he has lived on rabbits until he is afraid to go outside his yard for fear the dogs will run after him for a rabbit.

Farmers say if the present cold weather continues much longer that it will raise the price of corn and hay. Others say that the benefit to the wheat crop will more than offset the extra corn that it will take.

The cases of diphtheria reported last week are improving and no new cases have been reported and Nebo is now clear of diphtheria for the first time in several months.

Minos Cox, who was operated on for appendicitis sometime ago, has recovered.

Yandel Tilford went to Madisonville Tuesday.

Bob Payne went to Madisonville Monday.

When you feel tired and are everything wrong, take a dose of Cramblin's Liniment and Stomach and Liver Tablets. They will cleanse and invigorate your stomach, regulate your bowels, give you a relish for your food and make you feel that in this old world is a good place to live.

This remedy is for sale by St. Bernard Drug Store, Earlinton, Ky., Taylor, Earlinton.

Sold by St. Bernard Drug Store.

## Draggins Pains

2225 Keeler St.,  
Cincinnati, Ohio, Oct. 2, 1902.

I suffered with falling and constipation through a great deal of infirmity at the time of my marriage, had blinding headaches and rushing of blood to the head. When I was young and new man for it seemed that I had tried all I could, but I had never tried Wm. C. Caudill, that I had for six weeks. I found it pleasant to take and soon knew that I had the right medicine. New wood smoke and water through my veins and after using eleven bottles I was a well man.

James Winstead, of Earlinton, spent two days here last week.

Henry Price, who has been a citizen of this place for sometime, left last week for Wheatcroft, where he will make his future home. Henry was a quiet, good citizen and we regret to lose him and we wish him abundant success in his new home.
